

Integrating Analyses with Decision-Making: Food for Thoughts

Modelling COVID-19 Pandemic: Resources, Methodology and Applications

Winnie Yip, Phd

Professor of Global Health Policy and Economics
Faculty Director, Harvard China Health Partnership

How could we better prepare for another future pandemic?

What can we learn from COVID-19 so we can do better—reduce/limit negative consequences on human well-being?

Decisions under uncertainties and unknowns

- *“Even if a pandemic is not a war, there is still the fog of war, especially at the early stages.”*
- Gathering “intelligence” to know where the enemies, when they might likely strike, how big might be the operations..
- The scale and speed of the virus’ spread and impact parallels decisions during war time...

Health footprint of COVID-19 pandemic

COVID-19 pandemic and admission rates for and management of acute coronary syndromes in England

Ischemic Stroke in China

very preliminary, do not cite or quote

Consequences on Non COVID-19 Patients

- Delayed/forgone care and treatment: cardiovascular disease, stroke, cancer
- Disproportional burden on elderly
- Immunization and vaccinations
- Delayed diagnosis: such as colonoscopy, mammography, ...
- In lower- and middle-income countries: TB, HIV/AIDS, maternal and child care, nutrition programs

Percent change in visits from baseline

Should more hospitals be built?

大手笔！ 武汉一天动工 6家医院、中心

武汉一天动工6家医院、中心，基本都在新城区，这是武汉近年来最大的公共卫生投入，也是武汉首次大规模在新城区建设三甲医院。

2

黄陂区人民

- 级别** 三甲
- 床位** 1200张
- 总投资** 27.9亿元
- 规划总用地面积** 216亩
- 建筑面积** 24万平方米
- 地点** 黄陂产业新城
- 建成使用时间** 2021年底前
- 优势** · 面向114万黄陂群众服务面最广

3

蔡甸区 武汉常福医院

- 级别** 三甲
- 床位** 1000张
并预留紧急动员床位1000张
- 总投资** 25亿元
- 规划总用地面积** 291亩
- 建筑面积** 22万平方米
- 地点** 蔡甸区经济开发区常福新城西北角
- 建成使用时间** 2021年10月31日以前
- 优势** · 规划用地面积291亩为四家医院之最

4

新洲区 武汉航天城同济医院

- 级别** 三甲
- 床位** 一期1000张，二期500张
- 总投资** 24.3亿元
- 规划总用地面积** 约222.09亩
- 一期建筑面积** 一期21.5万平方米
- 地点** 武汉国家航天产业基地双柳航天新城核心区
- 建成使用时间** 2021年10月30日前
- 优势** · 打造绿色生态智慧型医院

5

华中科技大学同济医院 国家重大公共卫生事件 医学中心

- 地位** 首个在北京、上海之外设置的国家级医学中心，也是第六个国家级医学中心
- 地点** 同济光谷院区
- 建成时间** 3到5年
- 特点** · 牵头构建覆盖全国的国家重大公共卫生事件应急救治系统（国家-省-市-哨点医院/社区）

“In-hospital” vs “out-of-hospital” management of COVID-19

	Population (million)	Cases	Deaths	Case fatality rate	Mortality (per 100 000)
Lombardy	10.08	62 153	11 377	18.3%	112.9
Veneto	4.90	14 624	940	6.4%	19.2
Rest of Italy	45.39	88 378	9 328	10.6%	20.6

Data are n or %. Data are from the Civil Protection Department of the Italian Government, updated April 15, 2020.

Table: COVID-19 surveillance data in the Lombardy and Veneto regions and the rest of Italy

- China’s 网格管理—community based
- Modelling: “what IF primary health care were stronger, had people’s trust...?”

Economic Impacts

- GDP does not capture the full economic impacts
- Distributional effects are important:
 - Socioeconomic groups
 - Race/ethnic
- Poor/low-income population/countries:
 - Food, nutrition, housing, poverty
- Children:
 - Cognitive and social development

Incorporating Governance Structure
